

Hybrid Van Lifts AL625 / AL625HD

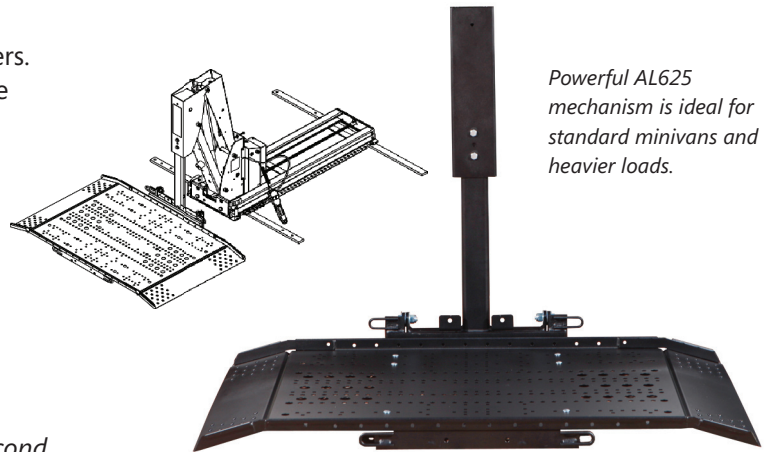

Ideal for Full-size and Mini Vans

Ideal for minivans and full-size vans, the AL625's universal design accommodates virtually all power chairs and scooters. Easy one-button loading works for those unable to operate a boom lift. Available in 350 lbs. and heavy-duty 400 lbs. capacities.

Features & Benefits

- Accommodates virtually all scooters and power chairs
- No scooter or chair modifications required.
- Drive on/Drive off dual entry platform
- Easy one-button operation
- No drilling required on most applications
- Connects to existing third row seat hardware, saves second row seating

Powerful AL625 mechanism is ideal for standard minivans and heavier loads.
