

WE ARE LOOKING FOR DISTRIBUTORS GLOBALLY

Specification

Dimension

Folded: 60*55*28cm (L*W*H)
Unfolded: 109*55*89cm (L*W*H)
Weight
Scooter: 25.8kg
Backrest: 1kg
Battery: 1.3kg/unit

Safety Tests

Safety: EN12184, Rohs
EMC: ISO7176-21
Risk Management: ISO14971

Charger

UL- and CE-approved
Auto-shutdown functionality
110-240V AC

Materials

Aviation-grade aluminium
High-tech plastics
Nylon-enforced ABS
8" solid front tire
10" pneumatic rear tires

Capacity

6 degrees maximum incline
53 inches (135 cm) turning radius
4 mph (6.4 km/h)
120 kg (265 lb.) maximum user weight

Battery

Safety certification: IEC 62133
Sea & Air transport certification: UN 38.3, MSDS
200 wh/ battery capacity output
6 hour charging time
1 battery delivers up to 9.4miles (15 km)
2 batteries deliver up to 18.6miles (30 km)

About Us

Creating the perfect mix of design, functionality and style. RELYNC Tech will change the way you travel, granting total independence no matter where you are. Portable transport is now a reality.
